Unit 3: Discussion

PARK UNIVERSITY // **DISCUSSION**

💬 Directions

From the causal modeling article, refer to the section on Omitted Variable or Confounding Bias. Think about a model or analysis you have constructed in the past. Discuss what omitted variable bias may have occurred and how much of an impact it may have had on your outcomes. Write 2-3 well-thought-out paragraphs on the topic.

Response to Two Peers (DUE: Sunday, 11:59 CT)

- Respond to two peers' discussion posts with your thoughts on how they could have remedied their omitted variable bias issues.

Please review the rubric for this assignment before beginning to ensure that you earn full credit. Contact me if you have any questions.
